

# FOREMAN

**LOCATION:** Boston Area

Charter Contracting is a growing Boston based Civil/Environmental Remediation Contractor with job sites throughout New England. Types of projects include but are not limited to environmental remediation, demolition, excavation, dredging, utility work, landfill cap and closures.

Qualifications include:

- 5-10 years construction experience
- OSHA 10 Hour certification
- Must have a license and ability to drive a company vehicle.

# RESPONSIBILITIES

While earthwork experience is preferred, it is not required. The foreman should have strong leadership skills, construction knowledge, and the ability to adapt to changing conditions on the job site.

- Manage daily operations, including overseeing laborers and equipment operators.
- Ensure tasks are completed according to project plans and timelines.
- Enforce safety protocols and ensure all team members wear personal protective equipment (PPE).
- Comply with building codes, permits, and environmental regulations.
- Coordinate with project managers, engineers, and subcontractors to keep the project on track.
- Ensure construction meets quality standards and project specifications.
- Oversee the use of heavy equipment and coordinate its operation.
- Manage the delivery and storage of construction materials.
- Maintain accurate records of work performed and report progress or issues to management.
- Communicate effectively with the crew, clients, and stakeholders.
- Address and resolve site issues quickly to maintain productivity.
- Lead the team, providing guidance and motivation.

# QUALIFICATIONS

In addition to the job duties above the ideal candidate will have the following qualifications below:

- 5-10 years construction experience
- OSHA 10 Hour certification
- Must have a license and ability to drive a company vehicle.
